The Dy Commr, Mysore District, forwards a copy of docket no. 453 of the 22d Decr 1900 from the Secretary Building Committee, stating

(1) that the transactions of the Committee were closed up to the end of Septr 1896 & a final report was submitted to Govt in Octr 96

Please see paper no (45)

(2) that it is not known up to what date the Comptr has adjusted the accounts but under his instructions the accounts are being shewn separately under

deposits as "Western Extension Fund

(3) that a sum of Rs. 33,922-8-11 was advanced for purchasing lands and opening roads ~~in~~ & the same was adjusted, &

4) that the western Extension & Chamaraj. puras are being managed by the Municipality since the final closing of the accounts, but no orders of formal transfer to the Municipal management, have been received yet.

The following two letters from the Dy Commr, Mysore District, also requires orders —

1 Letter no. ~~5. A1~~ 305 & 4th Sept 97 requesting sanction to an estimate for Rs 786 on Constructing rough stone culverts & forming roads in Sri Chamarajendra Agrahar in Chamarajpur Mysore Cts.

Letter no. 017 & 20.3.99

Soliciting orders for the resumption of certain building Sites in the Western Extension of the Mysore city, which have not been built upon by the purchasers.

Orders were accordingly sent to the Comptroller, and in reply thereto, he states as follows: —

"Up to the end of June 96, the balance on account of the Mysore City and Fort improvements remaining unadjusted amounted to Rs 47,158-6-8 as observed in para 2 of Govt Prog: No. 6369-71 R.F. 48-93 of 19th January 97. Almost the whole of this amount has since been adjusted leaving a small balance of Rs 2789-13-10, as detailed in the margin at the close of Decr 1900. Out of the latter sum Rs 410/- will also have to be deducted as bills have been received since in part adjustment of the same. The

Sir,

I have the honor to bring to your notice that when Proceedings of Government no: 10978-82 cir: 222 of 9th January 1891 was passed (copy attached for easy reference) appointing the "Building Committee" at Rly Zone, I was Vice President of Rly municipality and by that Proceeding the Vice President was to take charge of all records and to conduct the duties of Secretary.

2- Since my transfer there have been Several Vice Presidents and the work of the establishment of Chamarajpuram

has been almost at a stand still. There are scores of people willing to commence building houses but who cannot get sites, while hundreds of sites are nominally owned by parties who will neither pay for their land nor start building. This state of things should not be permitted to continue any longer since a large expenditure has been incurred in laying out roads and draining the proposed site for the suburbs.

3. I therefore beg a reconsideration of the order and to state that if the records are transferred to this office I shall do my best to induce people to start building at once, the present season being favorable for house building. The Committee may rest

the reconstituted, as at Bangalore the number reduced, Should Govern: ment Consider a Smaller number as Conducive to the rapid disposal of work.

Sir,

With reference to Government's Proceedings No 10978-82 Dated 9th January 1891, appointing a building Committee for the disposal of sites and approval of the description and style of houses to be built in the Western Extension in the Mysore City, I have the honor to state that Messrs C. Srinivasiengar and C. R. Subbarayer have left Mysore on transfer. The old Members now on the Committee are Mr. Narasimha Iyengar and Mr. Lee who, though not Vice President, still continues on the Board, the Deputy Commissioner and Vice President of the Mysore Municipality being Comparatively new.

2. Though much has been done, there is a good deal still to do, and a strong Committee is very necessary. I beg, therefore, to recommend that, in addition to the Deputy Commissioner, Mr. Standish Lee, the Vice President City municipality, and Rao Bahadur A. Narasimha Iyengar, Darbar Bakshi, Messrs L

Amble Anniah Pandit may be appointed as Members.

3. Mr. Seetharam Rao will make a worthy successor to Mr. Subbarayan and being always in Mysore will be of great use in the transaction of Business. As Mr. Standish Lee is not expected to remain always in Mysore or to spare as much time as heretofore for matters relating to the improvement of the Mysore city, it is desirable to have Mr. Raghavalu Naidu who will have a great deal to do in the building operations in the new Extensions. Mr. Amble Anniah Pandit has taken a great interest in improving Subbarayan Kere and laying out of new streets, and giving out of sites for houses round it and is likely to render excellent service in attending to details along with the Vice President of the Municipality. The Committee is slightly larger than before, but as 3 out of the 7 Members which it is proposed to contain will be frequently out on circuit, the addition now recommended is not unreasonable.

Bangalore.

Sir,

I have the honor to inform you that a ~~three~~ storied house belonging to Mr. Veera-bhadrappa stands to the west of the Fort North gate, where the public road leading to the west gate and Karikal Thottee of the Palace, is hardly 10 feet, and where the widening of the road has become now a necessity

2. A Committee of three gentlemen namely Mr. Ambalay Anniah Pandit, Mr. Basavalingiah and the Vice President, recently valued the house at about 6000 Rupees. Mr. Karne, the Executive Engineer Mysore Division, who was also consulted, valued it at Rupees 6,400. Against this Mr Veerabhadrappa contends that no allowance was made by the Committee in their valuation Statement for the cost of the foundation and the land on which the house stood. Taking the omission pointed out by Veerabhadrappa and allowing 15 per cent Extra according to the Land Acquisition Act for the immediate acquisition of the house, I offered him the round sum of Rupees 8000/, but he did not agree to it. He wants the fabulous sum of Rupees 20000/

about the same time as the City was formed is now so old and dilapidated that it is dangerous, and ~ cannot be worth more than Rupees 8000/ under any circumstance.

4 Veerabhadrappa admitted to me that he had once mortgaged the house for Rs. 2500/ and stated that he had, about 3 years ago, hypothecated it for Rupees ~ 10,000/ under a registered deed to one Sowkar Lutchmepathiah. But it was evident that the hypothecation had taken place long after Veerabhadrappa was aware of the intention of the Board to acquire the house, and I could not, therefore, believe the amount for which the house was said to have been hypothecated to be free from any exaggeration and premeditation to serve as a pose to demand higher price from the Board.

5. I asked Veerabhadrappa to give me only a portion of the house, so much as would be necessary to widen the road, but Veerabhadrappa is not ~ willing to do so and he is quite unwilling to ~ accept any reasonable terms. I, therefore, beg to submit herewith the draft declaration for the requisition of the house under the Land Acquisition Act for publication in the Mysore Gazette, as usual.

I have the honor to be

To

The Dy Commissioner

Sir,

With reference to the Chief Secretary's, camp No 432, dated 5 June 1894, forwarding Colonel Dewan's Memo of the same date regarding the issue of title deeds for the sites in the Western Extension, Chamarajapura, I have the honor to state that, as far as I am aware the condition of streets for the occupation of different castes has not been broken.

2. The line to the West of a portion of the Viceroy's Road from opposite Mr. Anandalwar's House Bungalow

towards South, is shown in the map to have been set apart for non vegetarians and though the first three of these sites in this line were given to Messrs Narainrow, Narayandiah and Govindacharlu long ago, the building work has not been commenced by the former two, and the Bungalow on the 3rd is in course of construction. The site which was given to Mr. Narainrow but resumed for failure to commence work, would be given to Mr. P. Raghavendra Row on his submitting a plan of the house which he proposes to build thereon.

3. In the three streets shown in the map to have been reserved for Brahmins in Chamarajpet, none of the sites has been given to any but Brahmins.

4 A list of the localities now declared by the Building Committee to be for the occupation of different classes of community is submitted for ready reference.

5 As regards the title deeds for the sites in the Western Extension and Chamarajapura, I beg to state that no formal title deed has been issued

to any purchaser who was given a receipt for having received the value from him with the description of the land sold to them being noted therein. The Building Committee has, however, authorized the issue of formal title deeds with the condition having reference to different streets being allotted to different castes pointed in the said deeds.

6. The total amount paid by Government on account of Compensation as far as is known to this office was Rupees 33,992-8-4. More money was paid by the Sanitary Engineer or by the Special Improvements Division on the same account. The total amount already realized by the sale of lands is Rs. 15,689-10-9 and about 2000 Rupees more shall have to be recovered from persons to whom sites were recently sold and from certain gentlemen to whom additional lands were given to be added on to the sites originally given them in the Dewan's Road. I have

every reason to believe that this out-standing will be collected in a months or so from hence.

7. I may here add that out of the lands purchased on payment of Compensation, a large area has been taken up for Public offices and Bungalows, a large number of sites were given to private individuals in exchange of the lands taken up for them for improvements in the fort, and other places and more land is still available in Chanda/pur for sale.

Mr. Anniah Pandit to go over the accounts before being passed

2. Proposal by Mr. Anniah Pandit that the money belonging to Western Extension Fund be deposited in the Madras Bank.

Resolved that Cash balance over and above 1000 Rupees be deposited in the Government Savings Bank on interest in the

Committee for the time being.

3. Proposal by Mr. Annah Pandit, that persons who are still in arrears should be insisted upon to remit the amount within a month, failing which interest will be charged at ½ per cent per mensem

Resolved that the Secretary do take steps to collect the money still due by a few persons who purchased lands in the Western Extension.

4. Petition from Tulasi Srinivasiengar for the vacant strip of about 4 or 5 feet of land lying between the sites granted to himself and B. C. Srinivasiengar.

Resolved that the strip of land applied for, be reserved for the present.

5 Petition from C. N. Krishnaswami for a site in the line granted for Nanjaraj Bahadur's agrahar.

The disposal of this application be deferred for the present.

6. Petition from Mr. Sub Judge H. V. Nanjundiah, submitting the plan for a double storied building in the site lately resumed from Mr. Under Secretary Narrain Rao.

Petition from Mr. P. Raghavendra Rao for the resumed site from Mr. Under Secretary, Narrain Rao and applied for by Mr. H. V. Nanjundiah

Mr. Nanjundiah not having commenced work of construction of a Bungalow in the site already granted him, and Mr. P. Raghavendra Rao having applied for the adjoining land, resolved that the said land be granted to the latter, on his submitting a plan with proper section and elevation for a two storied Bungalow with an approved frontage, to be built on it at an approximate cost of not less than 10,000 Rupees, and on his agreeing to commence work immediately.

7 Petition from Mr. Amildar Chowdia for the grant of 2 bungalow sites instead of one granted, and also for 3 house sites in the 2d. class B type.

Resolved that, as a separate Bungalow shall have to be built on each site as originally intended, additional sites cannot be granted to Mr. Chowdia to enable him to utilize them all for one Bungalow.

8. Petition from Mr. V. Sashachala in Moodiair for the grant of site No. 31 in the East of Bazar line.

Resolved that if the work of construction in the two sites and in the site now applied for to be commenced at once, the additional site be granted to Mr. Sashachala Moodr. provided that the frontage should be so constructed as to show 3 separate buildings according to the

3 Do — Do — Cir. 222

Office of the Dewan of Mysore

Camp : Mysore, 19 July 1886.

Memorandum.

From 1st Instant, (1) the Western extension of the City of Mysore, (2) the Gordon Park, (3) Bathing tanks below the Kukkerhalli Reservoir, (4) Improvements in the Fort of Mysore and 5) the drainage scheme of the Fort of Mysore will be treated as separate works and will be managed as follows.

No. 1. Western Extension. To the debit of this work should be entered (1) the cost of land purchased in 1880, 1884 and 1886; (2) the cost of the removal of houses behind the female Hospital and levelling of the same &c, and (3) the cost of roads and streets, whether made through the D.P.W. or the Civil

be entered receipts from sale of building sites and from temporary cultivation, or grazing of the lands. The whole should be under the charge of the Town Magistrate in Mysore, who should maintain a careful account as above set forth as well as a map shewing the proposed streets and lanes, and dimensions of building sites allotted from time to time. He should maintain also permanent stone boundary marks shewing the alignments of streets and lanes, and the limit beyond which houses should not extend As almost the whole of the land required for the Western extension has been purchased, very little additional expenditure on this work is required It must also be noted that careful attention should be paid at once to the

drainage of the parts intended to be built upon. The decision on this question should also be distinctly shown on the maps with restrictions, if any, as to building in connection with it.

No. 2 Gordon Park. This work should be under the charge of Mr. Lee and should be done with convict labor only, plants required being supplied from the Daria Dowlet, the Lall Bagh or the Forest Department.

No. 3. Bathing Tanks. This work will also be under Mr. Lee's charge, and what remains should be done by convict labor, except as regards the conservancy of the Imaperkhana (old Distillery Buildings) and the grounds adjacent to it which have

been taken charge of by the Municipality. It is reported that a small portion of the remaining work in these tanks is such as ought not to be done by convict labor Mr. Lee will submit at once an estimate of such work and take early steps upon sanction of such estimate, for the speedy execution of it. Work connected with the Fish Channel being debitable to the D.P.W. should not be charged to the Bathing Tanks' account. but should be done by convict labor as far as possible.

No. 4. Improvements in the Tank.

These improvements were pointed out by me and Major Bowen to the Dy: Commissioner, Town Magistrate & Sanitary Engineer. It should be under the immediate

charge of the Deputy Commissioner and the Town Magistrate aided of course by the Sanitary Engineer. I should like to see any valuation which may exist of houses to be removed, before according final sanction to this work. In submitting such valuation list; the Deputy Commissioner should also submit an extract from the Topo: or other map — showing distinctly the houses to be removed.

No 5. Drainage scheme of the Fort. I have asked Major Bowen to set it a foot immediately leaving the drainage of the rest of the town to be dealt with separately hereafter

The above distribution of work is made to ensure expedition and separate responsibility, but in the full hope that all officers concerned will co-operate with one another and

suggestions. The Municipal Board should also be invited to take an interest in these improve-ments and from time to time to offer such suggestions as they may deem proper in view of securing the fullest possible benefit to the public

Mr. Lee will also be requested to correct the Topographical Map of the City of Mysore in accordance with present arrangements and send such corrected copy to the Secretary D.P.W. in order that it may be incorporated in the Map to be published

A permanent gang of 200 Convicts has been ordered to be stationed in Mysore for work connected with the improvements of the City they should be employed for at present half on Gordon

Park, Channel and the other half on filling the ditch between the Ranga Charlu Memorial Hall and the Fort

I Letter from the Sanitary Engineer, with the Government of Mysore, requesting whether the Building Committee will allow the representatives of each district to construct a range of houses similar to Ranja Raj Bahadur's Agrahar on a suitable site.

Resolved that permission may be given to build a range of houses if raised substantially in a line with

II Canarease yadi from the Bank to Lingaiah municipal Commissioner of Krishna Raj mohalla, suggesting that the vegetable market erected to the north of Subbarayanakere be dismantled as none came forward to open a shop there, and one be erected from the same materials on the vacant land in front of Gopaul-Raj ws's stable.

Resolved that it may be dismantled and materials sold to the municipality for the cost-price.

III An Estimate amounting to Rs 1670---- prepared by the municipal Engineer, for enclosing the water-spread of the Subbarayan Tank, as the inhabitants about it have complained about the insanitary state of the tank during hot-weather especially.

Resolved that the estimate be sanctioned for Rs 1670- and work be carried out expeditiously and satisfactorily.

What steps have been taken, as the Lingaiah the municipal Commissioner for Krishna-Raj mohalla has not built his out-house.

on the Channa Rajah road, according to the plan given by Mr. Lee, and not taken ~ permission from the Building Committee.

Resolved that a notice be served on him to improve the frontage and ~ in default of which, further steps be taken

V. Application from Mr. H. Ranjunda Rao Mrs. for the site north of Mr. Sub-judge Ranjundiah's site on the Viceroy's Road, with a plan for approval in lieu of the one granted sometime ago.

Resolved that the site no I be given to him in lieu of the site given on Public offices road, and the building ~ be constructed as per approved plan within the prescribed time, subject to rules in force.

VI Application from Sidagowda, requesting to grant him a piece of land situated on the South-West corner of block-Tower ~ Road, behind the line line of road ~ towards South, and agreeing to build a house according to an approved plan of the Committee.

Resolved that the land could not be given him for building purposes.

VII Application from Manégar, Screna

giving them 14 feet of vacant land left-
after leaving 24 feet for a conservancy
Road.

Resolution of the Committee dated
25th November 1894. that the piece of 14 feet-
of land behind Govaramba Agrahara be
inspected before deciding, as to whether
it should be added to the houses on the
East as suggested by the Deputy ~
Commissioner, considering ~~the~~ of expense, the owners incurred
in filling the low ground, or it should
be divided between the houses on ~
both sides.

Resolved that the application
be rejected as it is not advisable to
diminish the breadth of the road under
any circumstances.

of the Building Committee with a statement
of accounts of its transactions from the year
1880 up to the 30th September 1896 received with

I have the honor to be,
Sir,
Your most obedt Servant,

Deputy Commissioner
of the Mysore District

Memorandum.

The extension of the City of Mysore, towards the west was ordered by the Government in the year 1880, when the late Mr. C. Rangacharlu was Revenue Secretary and the late Sir James Gordon, was Chief Commissioner of Mysore. For the purpose of purchasing lands for building sites a sum of Rupees 6772-8-0 was sanctioned in Chief Commissioners Proceedings Nos. 8-10 of 2nd April 1880. With this sum the Vice President of the Mysore City Municipality started the work of purchasing lands and houses above Jeevanrayan Kabbey, and Female Hospital.

Subsequently during

years 1884-85 and 1885-86, the further purchase of lands for building sites, the formation of the Gordon Park, and the improvements of the bathing ghauts, below Kukarhally reservoir, was ordered by the Dewan in connection with the improvement of the City, and these works also, were commenced by the Vice President but while the preliminary works were under progress, the Public Works Department was ordered to undertake the two latter works and complete them. To meet these charges a grant of Rupees 27,000 in the years '885-86, 1886-87 was made by the Government.

Up to end of August 1886 no marked progress was made in the construction of houses in the Western Extension although

although several pieces of land for building sites were purchased and a sum of Rupees 33,864-9-5 was spent on the above works by the Vice President. However as per Dewan's proceedings No. 2843-4/113 of 27th June 1886 and the Dewan's memorandum dated the 9th July 1886, the work carried out was devided into three different heads and the above expenditure incurred on them was debited to each as noted below.——————

(1)—Western Extension—27,578-3-3.
(2)—Gordon Park.——1,363-15-4
(3)—Improvements below the Kukarhally reservoir.——4922-6-1

Total Rupees-33,864-9-5

— With these details the accounts were submitted to the Government on 31st August 1886. After this the two latter works were managed by the Public Works Department and the 1st was under the charge of the Vice Presi[illegible]

of the Municipality as before.—

——A Committee was formed about the year 1886-87 with the following Officers as members.—

The Deputy Commissioner of the Mysore District.
Mr. A. Narasimiengar R.B.
Mr. Standish Lee.
Mr. C. Sreenivasiengar.
The Vice President of the Mysore City Municipality.

——The Committee was revised as per Government order no 10978-82 Civ: 222 dated the 9th January 1891, so as to be composed of the following gentlemen.—

The Deputy Commissioner.
The Vice President.
Mr. C. Sreenivasiengar.
Mr. A. Narasimiengar R.B.
Mr. E. R Subbarayar
Palace Controller.
Mr. Standish Lee
Sanitary Engineer.

——In Government order no 2853 L.J. 266-92 dated the 12th August 1893, the Committee

was

was again revised with the following gentlemen as members.

The Deputy Commissioner
(as means of communication between the Government and the Committee.)

Mr. Standish Lee.
Sanitary Engineer.
Ex officio as the Executive Head of the Committee.

Mr. A. Coopooswamy Moodr.
Vice President.
Ex: officio as Secretary.

Mr. A. Narasimiengar R.B
Durbar Bakshi.

Mr. D. Sitaram Rao
Palace Controller.

Mr. A. Annaiah Pandit.
Municipal Commissr.
as Members.

——All along the Vice Presidt has acted as Secretary to the Committee and on Mr. Coopoo-swamy Moodaliar's retirement from the service in July 1894 Mr. Nanjundaraj Urs who succeeded him as Vice President has also succeeded him as Secretary to the Building Committee.——

——The works carried out from the beginning are classed under three main heads viz:—

(1) Acquisition of lands.—

(2)—Making roads and building tunnels, &c.

(3)

(3)—General improvements—

A ition lands and

—The lands above Jeevana-Rayan Kattey and Female Hospital, and those behind the Jagan mohan Palace and near Hardwicke — college were purchased. The houses of Pindaries, Kakers, Holayers near Subbaraya Dasse agrahar were removed. A tope to the south of the mutt, and a few other lands here and there were acquired, to which were added the subbarayankere and the lands around it. The Special Improvements Division of the Public Works Department improved the Tank and it is now under the management of the Building Committee. ———— - - - - - - - - - - - -

Chamaraj ur

——This place bounded on the north by Chamaraj Road East Viceroys' Road, South culti-vated fields, and West Railway-line, was acquired by the Special Improvements Division of the Public Works Department, roads opened, tunnels constructed,

water pipes laid down, streets were marked and everything needed for a town was completed and with a memo of instructions for the disposal of sites with the class of building to be constructed thereon was transferred by the Public Works Department to be managed by the Building Committee.

Disposal of the building sites both in the Western Extension and Chamaraj Pura.

——Owing to the pressing demand for house sites on account of removal of houses of Gollakere, Jenkasala streets in the Fort, Kaker and Sindars, and other houses in the Western Extension no uniformity in the extension of sites was observed but as much of the land as the man who first started to build, could enclose, was given and in forming streets for each group of houses the equality in length was observed throughout but no order was observed in the breadth.

Of the sites no less

than 295 house sites were given in exchange for those taken in the Fort. A large area was granted free of cost for the following charitable Institutions in Western Extension.—

(1)—Nanjaraj Bahadur chattar near Railway station.—
(2)—Marimallappa's school.—
(3)—Sadvidya Patasala.—
(4)—Sitavilas agrahar and Dharmasala.——
(5)—Gopalakrishnaswamy's temple at the bund of Subbarayanakere.——
(6)—Chamarajendra agrahar.—
(7)—Nanjaraj Bahadurs' agrahar.——
(8)—Devaparthivaraj Bahadurs' agrahar and chattram.—
(9)—A mutt for Sivachar and people.——————

——Out of the remaining sites a few plots are reserved.——

(1)—To the east of Subbarayan kere.—
(2)—To the east of Sitavilas agrahar as flower gardens.——————
(3)—To the east of Hardwicke College for Sitavilas Hope and

all

all the other plots have been sold for building houses. - - - -

—In all 754 building sites were given out and the construction of 632 houses completed and used as residence by the people and 28 houses are under construction and will shortly be occupied and the rest remain vacant.———————————

—Although no distinction was observed in allotting the sites according to communities owing to the pressing demand as above stated yet Brahmins and other high caste Hindoos cautiously observed to be either in one line of street or in one agraharam as far as possible.———————————

—However the number of houses according to the community already constructed and occupied is as noted below—

Road making & building Tunnel in the Western Extension.

—There are 5 main roads leading east to west viz:— (1)—The Vanivilas - (2)—The Chama. raj (3)—The College (4)—The Jubilee - (5)—The Mutt or Public office and the Elwal roads—and four main roads leading south to north ie: (1)—The Viceroy (2)—The D. Subbaiya (3)—The Dewan

and the (4)—Narainsastri, Subbarayanakere road.—

Vanivilas Road. ——Nothing was spent by this Committee, but it is only formed by the Public Works Department and not yet completed.

Chamaraj Road. ——In the begining only a small portion of it was formed and one or two tunnel constructed by the Building Committee afterwards this was taken up by the Public Works Department and made into a hundred feet road and a large sum was laid up to make it beautiful and complete.

College Road. ——This is a 25 feet road newly opened at the suggestion and under the personal supervision of Mr A. Annaiya Pandit costing the Building Committee Rupees 2162-15-9 for forming the road and constructing culverts here and there. ——————————

Jubilee Road. ——This is an old road

leading to Kukarhally tank, ~~road~~ on ~~that~~ which, very little was done by the Building Committee, but in the way of lowering high levels here and there, some money was spent.

Mutt or P. Office Road.

——This is only a small bit of road it was nicely formed, drains and other necessary improvements were attended to.

Elwal Road

——This is simply mentioned here as it passes through the Western Extension. It is an old road always maintained by the Public Works Department and the Municipality.

The Viceroy's

——This was opened and completed by the Public Works Department but by the Building Committee only a tunnel was constructed.

D. Subbayya and The Dewans Roads.

——These two are altogether new roads, -

Owing

owing to the high level in some places and hollow pits in other places large sums were spent in forming. these roads side drains were opened and all the tunnels necessary constructed.———

Narainsastri Bharayanakere Road

———This is also an old road. but in many places it was lowered to give a proper level to it———

oss streets and Gallies

———In the streets and conservancy lanes to the east of the Viceroy and to the west and east of the Dewan roads V shaped drains were opened and many gallies were formed and they were raised to form into equal level with the adjoining main roads, culvert in the crossings were constructe and every thing required for a decent town was attended to. Particular attention is paid to the conservancy lanes, east street is provided with one. In no place less than 15 feet is left out for this purpose

The conservancy carts can freely pass in them. Even the coaches of those whoever have got coach godown at their back yard & can without the least obstruction use them. The water flows freely in the drains of the streets. But the main drainage remains to be attended to. ——————

——Under this head the following items are included:— General Improvement.

(a)——Improving bathing ghauts ie. constructing steps clearing weeds and other petty works——

(b)——Improving the Gordon Park—ie;—forming the roads & revetting the small tanks & raising walls around the graves excavating pits for trees xxx xxx ——————

(c)——Improving the Subbarayanakere. Removing a portion of the bund filling up hollows, rebuilding the waste weir and narrowing the water spread, since it

cause

came to the charge of the Building Committee a sum of Rupees 3683 was spent for narrowing the water spread, as it was found insanitary. In improving this portion of the town, Mr. A. Annaya Pandit took great pains, if not for his exertions, many Brahmin streets to the east of the tank would not have sprung up so soon.

(d) Constructing vegetable market.

(e) Constructing new latrines.

(f) Constructing wells.

(g) Dismantling a portion of the Distillery building.

Improvements still to be carried out are:-

(1) The V shaped drains wherever necessary are to be constructed.

(2) Very few culverts are needed.

(3) The rain water as well as the drainage water both are made to flow into the Subbarayan

Here, this of course, is very injurious to the health of the people around it and to those that bathe in it, therefore either a sewer, or an open drain should be opened to divert the drainage water. This can be done with very little expense, and may be ordered to be carried out by the Sanitary Department.

——The only important work that remains to be done is the setting apart of a piece of land for the cremation ground for the Hindus. Now there being none at present either in the Western Extension or Chamaraj Pura the inhabitants are put to the inconvenience of going all the way ~~long~~ to the one near Chamundi Hills This inconvenience has to be avoided by selecting a suitable site for the purpose. ——————

——In order to show the financial state of the Committee a detailed statement showing the receipts and expenditure from the year 1880, (in which the work was started in the Western Extension) ~~and~~ upto end of October 1895, with three other statements to show ——

(1)—The balances yet to be received from the purchasers of the sites both in the Western Extension and Chamaraj Pura.

(2)—The number of estimate value of sites yet to be disposed in both—and ——

(3)——Payments to the parties due by the Committee——

——From these statements herewith attached it will be seen that out of the total receipt of Rupees 61,311-11-5 from all sources, a sum of Rupees 60,104-6-3 was spent on all the items leaving a balance of Rupees 1,207-5-2 on hand.

The total assets of

Rupees 7,466-14-0 and his liabilities to Rupees Nil as noted under:-

Assets.

Accounts of the Committee.

As per Proceedings of the Dewan No. 2843/113 dated the 27th June 1886, accounts with vouchers up to 31st August 1886 was submitted to the Government and in accordance with Government order No. 4154-5/L.F. 269-93 dated the 8th September 1894

the accounts up to 30th June 1897, 95 and 96 were forwarded to the Comptroller with all vouchers for the purpose of audit.

——The Mysore Building Committee may hence forward be dissolved by the Government since the object with which the extension work was started and the committee was formed has almost been fulfilled. The Subbarayanakere and neighbourhood, long used for committing nuisances has now been reclaimed and laid out to resemble the salubrious — suburb of Mylapore in the town of Madras, with a small tank in the middle, four nice roads around it, with handsome buildings along the sides of them, a fine temple at one corner, and a site for a beautiful

flower

flower gardan in front of it.—

—In the western side of the City, the former abode of jackals and jungle animals, there are now many main and cross roads, wide streets with handsome bungalows having conservancy lanes, at the back, which are very important for the health of people especially in large towns.———————

—Persons who were deprived of their houses by improvements in the Fort and other parts of the town have all found new abodes here, and many who were houseless have now constructed and occupy their own houses.—

—The Municipality have all along been attending to the conservancy and supply of the lamp posts and construction of water fountains to those parts, as they came into occupation and in return they have been levying taxes on the houses completed and occupied as residences. The time

has now arrived to transfer from formally the Western Extension and Chamaraja Pura for its general management.

——It is now suggested that the Vice President who, as ex-officio Secretary to the Committee, has been in charge of the accounts and cash of the Building Committee from the beginning may be empowered to collect the outstandings due to the Committee, dispose of the building sites still available, and discharge the liabilities due by the Committee and utilise the balance, should there be any, on drains still to be constructed under the general supervision of the Deputy Commissioner or the President.

——The Committee cannot close this report without recording the valuable services rendered

by Mr R. V. Sundaram Iyer during the period he was Municipal Engineer for 2 years and 4 months in laying out and grading all main and cross roads and constructing drains and in the preparation of estimates for these and the similar works. ——————

——The Committee begs to recommend the payment of a bonus of Rupees 100 to M. B. Alagasingrachar the Manager of the Municipal Office as he has prepared several accounts connected with the Committee and carried out the correspondence working extra hours and devoting holidays to this work without prejudice to his own duties under the Municipality. It would also recommend a bonus of Rupees 80 to M. A. Appla char, Municipal Overseer

who

who worked very hard in carrying out all Public Works connected with the Committee. Also a bonus of Rupees 20 to M. Subba Rao alias Puttoo Rao, the Municipal English Clerk, who was keeping the correspondence and records of the Committee for the last 15 months, after dispensing with the separate establishment maintained for this branch. — — — — — — — —

Dated the 19th October 1896.

H. Ranjindas
Secretary
Building Committee
Mysore

We cannot conclude this report without expressing our deep sense of appriciation of the guidance the committee has had of its President, Mr. Standish Lee the Sanitary Engineer who was the very life and soul of the improvements in Mysore and of its Western Extension

from its commencement.

His intelligent and keen interest was noticeable in every detail throughout.

Sir,

General No 2574

With reference to your letter No 1164 dated 25th November 1896, requesting that the Copies of certain references and papers connected with the operation of the Building Committee, may be submitted for transmission to Government, I have the honor to forward, the Copies of the marginally noted references and to state that as the other references are not forthcoming in this Office their Copies are not sent.

However a note made in the "From Register" for having received proceedings Ry. S-16 dated 2nd April 1880 is herewith submitted.

Proceedings No $\frac{1645}{113}$ dated 17th June 1886 quoted in the letter under reference is not found in this Office register nor any reference made to it in the Memorandum submitted from this Office.

Proceedings of the Dewan of Mysore.

Dated Bangalore 27th June 1886.

Order No. 2043-4/3.

As reported by the Municipal Vice President in letter dated 17th November 1885 an excess of Rs. 390-7-2 appears to have been spent on the improvements in the Fort of Mysore, over and above the 15,000/- Rupees, granted to the municipality for this purpose on 15th July 1884. This amount will now be paid to the municipality and the same together with the said advance of Rupees 15,000/- charged to the General Revenues under the head municipal improvements in Mysore.

2. On the western extension of the City of Mysore, on improvements behind the Ka Karanlli Reservoir, and on the formation of the Gordon Park, about Rupees 26,000/- appears to have been expended up to date. The Government have already advanced Rupees 12,000/- on this account, and a further advance of Rs. 15,000/- will be made to the Town Magistrate of Mysore who will be requested to adjust all accounts up to the 30th June 1886 paying over to the municipality any sums which may have been advanced by them on this account and to submit a complete account of the expenditure with vouchers &c. to this office.

(*a*) The cash balance of Rs. 1,207-5-2 should be credited to Government under the head "Mysore City Improvement"

(*b*) The value of sites sold amounting to Rs. 3,097-0-10 which is still due should be recovered at once and credited under the same head. The whole of the arrears should be collected before the end of the current official year.

(*c*) The sites which have not been taken up should be disposed of as early as possible.

(*d*) Early steps should be taken to recover Rs. 1,162-8-0 due by the Southern Mahratta Railway Company on account of the sites taken up by them.

7. A suitable cremation ground for the Hindus should be selected at once. Drainage water ought not to be allowed to flow into Subbarayankere. "V" shaped drains where necessary, should be constructed. In short, the upkeep and efficient management of this portion of the City newly formed rests with the Board and it is hoped that special attention will be paid to conservancy and sanitary measures.

8. The bonuses recommended in favor of the undermentioned officials are sanctioned. The Deputy Commissioner is requested to pay the amounts, which should be debited to "Mysore City Improvement":—

From the Deputy Commissioner, Mysore District, To the Secretary to the Government of Mysore, Revenue and General Departments, No. 938—Enclosures No. 2, dated Mysore, 28th October 1896.

As requested in your Rocket Camp No 321, dated the 27th June 1896, I beg to submit herewith the Memorandum on the operations of the Building Committee with a statement of accounts of its transactions from the year 1880 up to the 30th September 1896 received with the Committee's Secretary's letter No. 192 of the 19th October 1896.

Memorandum by the Secretary. Building Committee, Mysore, dated 19th October 1896.

Preliminary.—The extension of the City of Mysore towards the west was ordered by the Government in the year 1880, when the late Mr. C. Rangacharlu was Revenue Secretary, and the late Sir James Gordon was Chief Commissioner of Mysore. For the purpose of purchasing lands for building sites, a sum of Rs. 6,772—8—0 was sanctioned in Chief Commissioner's Proceedings No. 8-10—1 of 2nd April 1880. With this sum the Vice-President of the Mysore City Municipality started the work of purchasing lands and houses above Jivanrayanzatte and Female Hospital.

Subsequently during the years 1884 85 and 1885-86, the further purchase of lands for building sites, the formation of the Gordon Park, and the improvements of the bathing ghauts below Kukarhalli Reservoir, was ordered by the Dewan in connection with the improvement of the City, and these works also were commenced by the Vice-President, but while the preliminary works were under progress, the Public Works Department was ordered to undertake the two latter works and complete them. To meet these charges a grant of Rs 27,000 in the years 1885-86, 1886-87 was made by the Government.

Up to end of August 1886 no marked progress was made in the construction of houses in the Western Extension, although several pieces of lands for building sites were purchased and a sum of Rs. 33,861—9—5 was spent on the above works by the Vice-President. However as per Dewan's Proceedings No 2843-4—113 of 27th June 1886 and the Dewan's Memorandum dated the 9th July 1886, the work carried out was divided into three different heads and the above expenditure incurred on them was debited to each as noted below :—

	Rs.	As.	P.
(1) Western Extension	27,578	3	3
(2) Gordon Park ..	1,363	15	4
(3) Improvements below the Kukarhalli Reservoir	4,922	6	10
Total	33,864	9	5

With these details the accounts were submitted to the Government on 31st August 1886. After this the two latter works were managed by the Public Works Department and the first was under the charge of the Vice-President of the Municipality as before.

Constitution of the Committee.—A Committee was formed about the year 1886-87 with the following Officers as members :—

The Deputy Commissioner of the Mysore District.
Mr A Narasimmengar, Rai Bahadur.
Mr Standish Lee.
Mr C Sreenivasengar.
The Vice-President of the Mysore City Municipality

The Committee was revised as per Government Order No. 10978-82—Cir. 222, dated the 9th January 1891, so as to be composed of the following gentlemen :—

The Deputy Commissioner
The Vice President
Mr C Sreenivasengar
Mr A Narasimmengar, Rai Bahadur.
Mr. E R. Subrayer, Palace Comptroller.
Mr. Standish Lee, Sanitary Engineer.

In Government Order No. 2853—L. F. 266-92, dated the 12th August 1893, the Committee was again revised with the following gentlemen as members :—

The Deputy Commissioner (as means of communication between the Government and the Committee).
Mr. Standish Lee, Sanitary Engineer, Ex-Officio as the Executive Head of the Committee.
„ A. Coopoosawmy Moodaliar, Vice-President, Ex-Officio as Secretary.
„ A. Narasimiengar, Rai Bahadur, Durbar Bakshi } as Members.
„ D. Sitaram Rao, Palace Controller }
„ A. Annaiya Pandit, Municipal Commissioner }

All along, the Vice-President has acted as Secretary to the Committee and on Mr. Coopoosawmy Moodaliar's retirement from the service in July 1894, Mr. Nanjundaraj Urs who succeeded him as Vice-President, has also succeeded him as Secretary to the Building Committee.

The works carried out from the beginning are classed under three main heads. *viz* :—

(1) Acquisition of lands.
(2) Making roads and building tunnels, and
(3) General Improvements.

Acquisition of lands and houses.—The lands above Jivanrayankatte and Female Hospital, and those behind the Jaganmohan Palace and near Hardwicke College were purchased. The houses of Pindaris, Kakars, Holayers near Subbarayadasa Agrahar were removed. A tope to the south of the Matt, and a few other lands here and there were acquired, to which were added the Subbarayankere and the lands around it. The Special Improvements Division of the Public Works Department improved the tank and it is now under the management of the Building Committee.

Chamarajpura.—This place bounded on the north by Chamaraj Road, east Viceroy's Road, south cultivated fields, and west Railway line, was acquired by the Special Improvements Division of the Public Works Department, roads opened, tunnels constructed, water pipes laid down, streets were marked and everything needed for a town was completed and with a memo of instructions for the disposal of sites with the class of building to be constructed thereon was transferred by the Public Works Department to be managed by the Building Committee.

Disposal of the building sites both in the Western Extension and Chamarajpura.—Owing to the pressing demand for house sites on account of removal of houses of Gollakere, Tenkasala streets in the Fort, Kakar and Pindars, and others, houses in the Western Extension, no uniformity in the extension of sites was observed but as much of the land as the man, who first started to build, could enclose, was given and in forming streets for each group of houses the equality in length was observed throughout but no order was observed in the breadth.

Of the sites no less than 295 house sites were given in exchange for those taken in the Fort. A large area was granted free of cost for the following Charitable Institutions in the Western Extension :—

(1) Nanjaraj Bahadur Chattram near Railway Station.
(2) Marimallappa's School
(3) Sadvidya Patasala.
(4) Sitavilas Agrahar and Dharmasala.
(5) Gopalakrishnaswami's Temple at the bund of Subbarayanakere.
(6) Chamarajendra Agrahar.
(7) Nanjaraj Bahadur's Agrahar.
(8) Devaparthivaraj Bahadur's Agrahar and Chattram and
(9) A Matt for Sivachar people

Out of the remaining sites a few plots are reserved—

(1) To the east of Subbarayankere.
(2) To the east of Sitavilas Agrahar as flower gardens.
(3) To the east of Hardwicke College for Sitavilas tope,

and all the other plots have been sold for building houses.

In all 754 building sites were given out and the construction of 632 houses completed and used as residence by the people and 28 houses are under construction and will shortly be occupied and the rest remain vacant.

Although no distinction was observed in allotting the sites according to communities owing to the pressing demand as above stated, yet Brahmins and other high caste Hindus cautiously observed to be settled in one line of street or in one Agraharam as far as possible.

However the number of houses according to the community already constructed and occupied is as noted below :—

Brahmins	117
Kshatriyas	10
Vysyas	5
Sivachars	10
Other Hindus	306
Muhammadans	152
Native Christians	45
Europeans and Eurasians	2

The houses yet to be constructed as per allotments made and classed according to the communities are noted below :—

Road making and building Tunnels in the Western Extension—There are 5 main roads leading east to west *viz*—(1) the Vanivilas, (2) the Chamaraj, (3) the College, (4) the Jubilee, (5) the Matt or Public Office and the Elwal roads, and four main roads leading south to north *viz*—(1) the Viceroy, (2) the D. Subbaya, (3) the Dewan, and (4) the Nyamsastri—Subbarayankere road

The Vanivilas Road—Nothing was spent by this Committee, but it is only formed by the Public Works Department and not yet completed

The Chamaraj Road—In the beginning only a small portion of it was formed and one or two tunnels constructed by the Building Committee, afterwards this was taken up by the Public Works Department and made into a hundred feet road and a large sum was laid up to make it beautiful and complete.

The College Road—This is a 25 feet road newly opened at the suggestion and under the personal supervision of Mr V Ammanji Pandit costing the Building Committee Rs 2,152—1—9 for forming the road and constructing culverts here and there

The Jubilee Road—This is an old road leading to Kularhalli Tank, on which very little was done by the Building Committee but in the way of lowering high levels here and there, some money was spent

Matt or Public Office Road—This is only a small bit of road it was nicely formed drains and other necessary improvements were attended to

Elwal Road—This is simply mentioned here as it passes through the Western Extension It is an old road always maintained by the Public Works Department and the Municipality

The Viceroy's Road—This was opened and completed by the Public Works Department, but by the Building Committee only a tunnel was constructed

D. Subbaiya and the Dewan's Roads.—These two are altogether new roads; owing to the high level in some places and hollow pits in other places, large sums were spent in forming these roads, side drains were opened and all the tunnels necessary constructed.

The Narainsastri-Subbarayankere Road.—This is also an old road but in many places it was lowered to give a proper level to it.

Cross Streets and Gallies.—In the streets and conservancy lanes to the east of the Viceroy and to the west and east of the Dewan roads, V shaped drains were opened and many gallies were formed and they were raised to form into equal level with the adjoining main roads, culverts in the crossings were constructed and everything required for a decent town was attended to. Particular attention is paid to the conservancy lanes, each street is provided with one. In no place less than 15 feet is left out for this purpose. The conservancy carts can freely pass in them. Even the coaches of those whoever have got coach godown at their back-yard can without the least obstruction use them. The water flows freely in the drains of the streets. But the main drainage remains to be attended to.

General Improvement.—Under this head the following items are included :—

(*a*) Improving bathing ghaut, *i. e.*, constructing steps, clearing weeds and other petty works.
(*b*) Improving the Gordon Park, forming the roads, revetting the small tanks, raising walls around the graves, excavating pits for trees, &c., &c.
(*c*) Improving the Subbarayankere. Removing a portion of the bund, filling up hollows, rebuilding the waste weir and narrowing the water spread, since it came to the charge of the Building Committee a sum of Rs. 3,083 was spent for narrowing the water spread alone as it was found insanitary. In improving this portion of the town, Mr. A. Annaiya Pandit took great pains, if not for his exertions, many Brahmin streets to the east of the tank would not have sprung up so soon.
(*d*) Constructing vegetable market.
(*e*) Constructing new latrines.
(*f*) Constructing wells.
(*g*) Dismantling a portion of the Distillery Building.

Improvements still to be carried out are—

(1) The V shaped drains wherever necessary are to be constructed.
(2) Very few culverts are needed.
(3) The rain water as well as the drainage water both are made to flow into the Subbarayankere, this of course is very injurious to the health of the people around it and to those that bathe in it, therefore either a sewer, or an open drain should be opened to divert the drainage water. This can be done with very little expense, and may be ordered to be carried out by the Sanitary Department.

The only important work that remains to be done is the setting apart of a piece of land for the cremation ground for the Hindus. Now there being none at present either in the Western Extension or Chamarajpura, the inhabitants are put to the inconvenience of going all the way to the one near Chamundi Hills. This inconvenience has to be avoided by selecting a suitable site for the purpose.

Finances of the Committee.—In order to show the financial state of the Committee a detailed statement showing the receipts and expenditure from the year 1880, (in which the work was started in the Western Extension) up to end of October 1895, with three other statments to show :—

(1) The balances yet to be received from the purchasers of the sites both in the Western Extension and Chamarajpura.
(2) The number of estimated value of sites yet to be disposed of in both, and
(3) Payments to the parties due by the Committee.

From these statements herewith attached, it will be seen that out of the total receipt of Rs. 61,311—11—5 from all sources, a sum of Rs. 60,104—6—3 was spent on all the items, leaving a balance of Rs. 1,207—5—2 on hand.

The total assets of the Committee amounts to Rs. 7,466—14—0 and its ...es to Rs. nil as noted under:—

ETS—		Rs.	A.	P.
I.	Value of sites sold and remaining to be recovered— Western Extension, Chamarajpura ..	3,097	0	10
II.	Estimated value of sites to be disposed— Western Extension, Chamarajpura	2,000	0	0
III.	Value of sites taken up by the Southern Mahratta Railway Company ..	1,162	8	0
IV.	Cash Balance on hand	1,207	5	2
	Total ...	7,466	14	0

LIABILITIES—		
	For work done For other purpose	Nil.
	Total	Nil.

Accounts of the Committee.—As per Proceedings of the Dewan No. 2843—113, dated the 27th June 1886, accounts with vouchers up to 31st August 1886 were submitted to the Government, and in accordance with Government Order No. 4154-5—L. F. 269-93, dated the 8th September 1894, the accounts up to 30th June 1894–95 and 96 were forwarded to the Comptroller with all vouchers for the purpose of audit.

Conclusion.—The Mysore Building Committee may henceforward be dissolved by the Government, since the object with which the extension work was started and the Committee was formed, has almost been fulfilled. The Subbarayankere and neighbourhood, long used for committing nuisances has now been reclaimed and laid out to resemble the salubrious suburb of Mylapore in the town of Madras, with a small tank in the middle, four nice roads around it, with handsome buildings along the sides of them, a fine temple at one corner, and a site for a beautiful flower garden in front of it.

In the western side of the City, the former abode of jackals and jungle animals, there are now many main and cross roads, wide streets with handsome bungalows having conservancy lanes at the back, which are very important for the health of people especially in large towns.

Persons who were deprived of their houses by improvements in the Fort and other parts of the town have all found new abodes here, and many who were houseless have now constructed and occupy their own houses.

The Municipality have all along been attending to the conservancy and supply of the lamp posts and construction of water fountains to those parts, as they came into occupation and in return they have been levying taxes on the houses completed and occupied as residences. The time has now arrived for transferring formally to them the Western Extension and Chamarajpura for general management.

It is now suggested that the Vice-President who, as Ex-Officio Secretary to the Committee, has been in charge of the accounts and cash of the Building Committee, from the beginning may be empowered to collect the outstandings due to the Committee, dispose of the building sites still available, and discharge the liabilities due by the Committee and utilise the balance, should there be any, on drains still to be constructed under the general supervision of the Deputy Commissioner or the President.

The Committee cannot close this report without recording the valuable services rendered by Mr. R. V. Sundaram Iyer during the period he was Municipal Engineer for 2 years and 4 months in laying out and grading all main and cross roads and constructing drains and in the preparation of estimates for these and the similar works.

The Committee begs to recommend the payment of a bonus of Rs. 100 to M. B. Alagasingrachar, the Manager of the Municipal Office, as he has prepared several accounts connected with the Committee and carried out the correspondence, working extra hours and devoting holidays to this work without prejudice to his own duties under the Municipality. It would also recommend a bonus of Rs. 80 to M. A. Applachar, Municipal Overseer, who worked very hard in carrying out all public works connected with the Committee. Also a bonus of Rs. 20 to M. Subba Rao *alias* Puttu Rao, the Municipal English Clerk, who was keeping the correspondence and records of the Committee for the last 15 months, after dispensing with the separate establishment maintained for this branch.

19*th October* 1896.

H. NANJUNDARAJ URS,
Secretary, Building Committee, Mysore.

———

We cannot conclude this report without expressing our deep sense of appreciation of the guidance, the Committee has had, of its President, Mr. Standish Lee, the Sanitary Engineer, who was the very life and soul of the improvements in Mysore and of its Western Extension from its commencement.

His intelligent and keen interest was noticeable in every detail throughout.
